

#### Unique Features:

**6x**  
**Energy Efficient**  
200 watt.

**Large capacity**

up to 400pcs

**12hrs**

cooling reserve  
(Electric outage, ice cream  
is safe up to 12hrs)

Engineered for  
**Outdoor use**  
(up to 43°C)

#### Outcomes: (beyond vending)

**Unlock Sales:**

- 24/7
- Multiple purchase
- Bundle offer

**Instant Delivery**

Integrated with

**Grab**

**Marketing Outreach:**

- New Product Launching
- Membership
- Voucher

## Machine's components

Outer view of the machine. User's interface to purchase product from vending machine

After opening the Outer door, is the location for machine's controller components

## General Features

- Weight: 280 kg
- Rated power: 200 watt
- Operating temperature: -24°C
- Product Menu: 22" LED ultra clear light box, and 10" digital screen
- MDB compliant
- Cash (bill and coin) and cashless system compatible
- Guaranteed product delivery; if not, no money deduction
- Remote monitoring capability (live-view temperature, sales, inventory etc)
- Purchase-with-Purchase feature: second purchase to enjoy discount
- Available of spoon dispenser and plastic bag dispenser
- SKU & capacity: 12 sku, 400 pcs
- Thermal holding power: 12 hours

## Refrigeration

- Energy efficient (80% lower electric consumption than conventional frozen vending machine)
- High efficient refrigerant: R600a
- Auto defrost. During defrost, able to maintain all the time to be below freezing point, to ensure ice cream quality
- 12hrs thermal holding power (during power loss, can hold 12hours to keep ice cream remain safe)

Cloud based live-view on machine status: temperature, inventory, sales, error, Coin & Bill equipment condition  
Fully integrated with NAYAX cashless terminal: Provide pre-defined SMS alarm notification Detail Sales report

## Auto defrost cycle, every 15hrs

## Thermal holding power

Thermal Holding Power  
(Machine's Temperature after power cut off)

Ice cream temperature would be 2°C to 5°C lower than machine temperature.  
In the event of loss of electric power, this 12 hours thermal holding power feature, can protect ice cream from melt. This can reduce losses and ensure highest ice cream quality and customer satisfaction

## Temperature (outdoor) Climate class: t (up to 43°C)

8 Days Temperature Graph, Machine Under Direct Sunlight
